Executive summary	i
1. Introduction	1
1.1 The Pacific Highway Upgrade Program	1
1.2 Wells Crossing to Iluka Road project	1
1.3 Study process	3
1.4 The study area	3
2. Strategic transport and planning context	5
2.1 Transport planning context	5
2.1.1 Federal Government objectives and policy initiatives	5
2.1.2 NSW Government objectives and policy initiatives	5
2.1.3 General traffic characteristics	5
2.1.4 Characteristics of heavy vehicle usage	6
2.1.5 Performance of the existing transport network	7
2.1.6 Future travel demand	8
2.2 Strategic land use planning context	9
2.3 Statutory planning considerations	10
2.4 Need for the project	11
2.5 Implications of doing nothing	12
3. Project objectives and design principles	13
3.1 Objectives	13
3.2 Design principles	14
3.2.1 Highway design principles and standards	14
3.2.2 Urban design principles and strategy	17
4. Community and stakeholder consultation	19
4.1 Consultation objectives	19
4.2 Consultation activities	19
4.3 Government agency consultation	20
4.4 Community Liaison Groups	21
4.5 Community meetings and activities	22
4.6 Issues raised by the community	22
4.7 Issues raised by local and State Government agencies	23
4.8 How consultation influenced route options development	25
4.9 Where to from here	25
5. Characteristics of the study area	27

5.1	Overview of the study area	27
5.1.1	Location	27
5.1.2	How the study area was defined	27
5.1.3	Review of the study area boundary	28
5.2	Transport and accessibility within the study area	30
5.2.1	Regional road network	30
5.2.2	Other transport infrastructure	32
5.2.3	Local road network	32
5.2.4	Existing and projected future Pacific Highway traffic	33
5.2.5	Origins and destinations of traffic using the Pacific Highway	37
5.2.6	Property access	39
5.3	Biophysical characteristics	39
5.3.1	Topography, geology and soils	40
5.3.2	Drainage and flooding	43
5.3.3	Water quality	47
5.3.4	Ecology	49
5.3.5	Climate and air quality	55
5.4	Social and economic characteristics	57
5.4.1	Social context	57
5.4.2	Land use and settlement patterns	60
5.4.3	Public utilities	65
5.4.4	Indigenous heritage	65
5.4.5	Non-Indigenous heritage	68
5.4.6	Visual amenity	69
5.4.7	Noise environment	71
5.5	Economic context	73
6.	Route options development	75
6.1	Process for development of the route options	75
6.2	Long list of potential route options	78
6.3	Assessment of long list of options	78
6.4	Options between Harwood Bridge and Iluka Road	82
6.5	Route options suggested by the community	83
7.	Short listed route options	89
7.1	Overview of the short listed route options	89
7.1.1	Wells Crossing to Harwood section	89
7.1.2	Harwood to Iluka Road section	90
7.1.3	Traffic and transport overview of the route options	92
7.1.4	Interchanges and access	93
7.1.5	Statutory planning overview of the route options	95
7.2	Assessment of the Orange/A option	97

7.2.1	Overview	97
7.2.2	Traffic and transport considerations	98
7.2.3	Environmental considerations	99
7.2.4	Social considerations	103
7.2.5	Summary of the Orange/A option	107
7.3	Assessment of the Purple/B option	110
7.3.1	Overview	110
7.3.2	Traffic and transport considerations	110
7.3.3	Environmental considerations	112
7.3.4	Social considerations	116
7.3.5	Summary of the Purple/B option	120
7.4	Assessment of the Green/C option	122
7.4.1	Traffic and transport considerations	122
7.4.2	Environmental considerations	124
7.4.3	Social considerations	127
7.4.4	Summary of the Green/C option	130
7.5	Assessment of the Red/D option	132
7.5.1	Functional considerations	132
7.5.2	Environmental considerations	134
7.5.3	Social considerations	136
7.5.4	Summary of the Red/D option	139
7.6	Potential connections between options	141
7.7	Harwood to Iluka Road section	144
7.7.1	Functional considerations	144
7.7.2	Environmental considerations	146
7.7.3	Social considerations	147
7.7.4	Summary of the options between Harwood and Iluka Road	149
7.8	Comparative summary of the route options	151
8.	Future development of the project	155
8.1	Selection and design of the preferred route	155
8.2	Environmental impact assessment	155
9.	References	157
