

February 2019

## Work outside approved construction hours on the Pacific Highway, New Italy

Roads and Maritime Services, Pacific Complete and its contractor partners are working together to deliver the Woolgoolga to Ballina Pacific Highway upgrade.

As part of building the upgrade between Devils Pulpit and Broadwater the project team will be working outside approved construction hours.

## Work hours

Typically work will be carried out during the project's approved construction hours, which are:

| Approved construction hours |   |
|-----------------------------|---|
| Monday to Friday 7am–6pm    |  |
| Saturday 8am–5pm            |   |

In areas where residents live more than 200 metres from the work, extended work hours are allowed between 6am and 7am and 6pm and 7pm from Monday to Friday. No work will be carried out on Sunday or a public holiday.

## Work outside approved construction hours

This work is for technical reasons and planned from 6pm to 7am between Monday and Friday from 4 March to 8 March 2019.

There are technical reasons why this work is required outside approved construction hours, including:

- **Safety** – making it safer for motorists and workers when we are building over and next to roads by reducing interactions between these two groups.
- **Traffic** – building next to, over and on existing roads, means traffic may be stopped or reduced to one lane while work is carried out.

For work that measures below five decibels at residential properties or if it is needed for technical reasons, the project team is only required to notify the community.

## Work we will do

| Location  | Activity  | Occurrence                              | Hours      | Impact                  | Why               |
|---|---|---|------------|-------------------------|-------------------|
| Pacific Highway, New Italy – starting from Nortons Road and moving north about 700 metres | Relocating barriers with a crane and line marking | For five nights from 4 March to 8 March | 6pm to 7am | Noise (medium)<br>Light | Safety<br>Traffic |

NOTE: Where this work may be affected by weather, the work will occur for five nights between 8 March and 15 March, weather permitting.

## How we manage our work

The project team will use machinery that generates noise and light. To manage this work, we will:

- direct temporary lighting down and away from homes
- locate equipment such as generators as far as possible from residences
- turn-off machinery when not in use
- plan activities close to residents to coincide with normal construction hours, where possible
- fit equipment with devices to minimise noise, particularly reversing squawkers

All work will be carried out in-line with the project's Conditions of Approval and Construction Environmental Management Plan.

## Traffic changes

To manage queuing and safety, there will be some temporary traffic changes and lane closures that may affect travel times. Please keep to speed limits and follow the direction of traffic controllers and signs.

Motorists are encouraged to remember PAC – Plan, Awareness, Caution. For the latest traffic updates, you can call 132 701, visit [livetraffic.com](http://livetraffic.com) or download the Live Traffic NSW app.

We apologise for any inconvenience and thank you for your patience during this important work.
